## TEACHERS CHOSEN.

THE BOARD'S IMPORTANT MEETING LAST NIGHT.

ALL ARE NOT YET FILLED.

Many Appointed, Some Dropped and Still Others Are Under Consideration.

The board of education held its most important meeting for a year last night, when teachers for the ensuing year were elected.

In the Broadway school, no principal was chosen, for the reason that Mr. Horton, who has held the position for the past year, was not an applicant for re-appointment.

In several of the schools there are vacancies, all of which will be acted upon by the board later.

Miss Sue Kernodle, principal of Summit school for some time past, was not re-elected last night, but her application is still being considered by the board.

Action was deferred on the applications of Misses Mary K. Brigham, Cora H. Tredway and Bettie H. Hopkins, who are in poor health. The positions will be left open until August 15, when, if their health is fully restored, they will be re-elected; otherwise, the positions will be filled by the appointment of other teachers.

As will be seen by scanning the list of appointees, some of the former teachers have been dropped. Following is a full list of those appointed last night:

Broadway High School—Agnes Reilly, Mattie M. Letts, Ina A. Milroy and Myrta V. Whitney.

Broadway Grammar School—Miss Sue Green, president; Bessie Williams, Hattie Van Antwerp, Harriet M. Post, Clara L. Stryker, Phoebe J. Wilcox, Lida Burrell, Nellie D. Leaming, Miss Helen Gallie was elected special teacher of music. There are three vacancies that will be filled later.

Prospect School—Hattie Gold, principal; Phoebe Randall, Carrie A. Bagby, Ida Barley, Eliza Nichols, Hattie Russell, Floy Jackson, Birdie Shaffer, Lillian Sharp. In this school the entire corps were re-elected.

Summit School—The position of principal is still open, but the following teachers were chosen: Lizzie Wagonlander, Jessie M. Tredway, Eunice C. Cousley, Lillie Berry, Lute Smith, Jennie Keiser, Lucy Hill.

Franklin School—Mary F. Logan, principal; Eva M. Thomas, Allie S. Johnson, Ruth Leaming, Isa M. Norton.

Northeast Sedalia School—Emma Stosberg, principal; Evelyn Jump, Mary Doble, Jessie Wanamaker, Eva A. Hauptly.

Central Primary School—Mrs. Cammie Garrett, principal; Miss Cattie Hughes.

Southwest Sedalia School—Ella M. Gentry, principal; Ella A. Cousley.

Southeast Sedalia School—Laura E. Tucker, principal; Josephine Kaiser.

Lincoln School—The former principal was dropped. The teachers elected were: J. I. Lane, Elizabeth Jones, Mildred Walker, Matilda Nelson.

It was midnight when the board completed its labors and an adjournment was had.

day to reorganize the order.

The day is the one fixed by the constitution of the order for the regular meeting of the sitting. It is stated by the local members of the order that it will be reorganized in accordance with the suggestions made by the supreme court. It is maintained by the attorneys for Somerby that under the decision of the higher court the order may be able to secure possession of its funds if it reorganizes and can show to the lower court that it is competent to receive the money now in the hands of the receiver. Accountant Walker says that there are representatives here from many states to attend the meeting.

## UPHELD HIS WIFE'S HONOR.

H. L. Thorp Shoots an Ex-Precator Who Maligns Her.

LITTLE ROCK, Ark., May 23.—T. R. Mason, an ex-preacher and populist leader of this state, was shot and instantly killed yesterday at Pleasant Plains, Independence county, Arkansas, by H. L. Thorp, a school teacher at Pleasant Plains. Mason charged Thorp's wife with being on terms of intimacy with a young man named Junius Sadler. Thorp is a brother of Professor Thorp, the well-known Kansas educator.

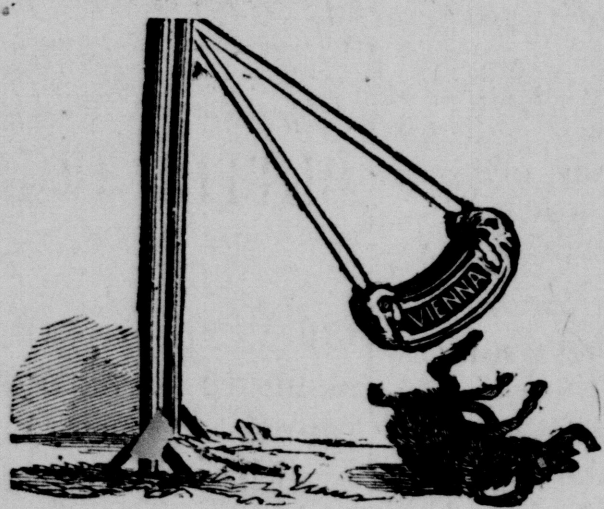

## Senator Vest Coming West.

WASHINGTON, D. C., May 23.—Senator George G. Vest left Washington to-day for Chicago, where he will spend a couple of days taking a glimpse at the fair and attending to private matters. He will go thence to Montana, and the far west, and does not expect to return for several weeks.

These remedies can be purchased at the Opera House Drugstore and at most all first-class drugstores.

## THE HEATHEN CHINEE.

He Comes in Large Numbers and Brings Smallpox.

WASHINGTON, D. C., May 23.—Assistant Secretary Hamlin has been informed of the arrival at Portland, Ore., on Saturday last, of the steamer Danube, which plies between Chinese and American ports, with 500 Chinese on board.

Small pox was reported as being prevalent among the Chinese.

Mr. Hamlin has instructed the collector at Portland to confer with Dr. Stone, the health officer, and see to it that the quarantine regulations were strictly observed; also the law as to the entry into this country of Chinese.

## THE ALLEGED MURDERESS.

Lizzie Borden Said to Be Failing Very Fast.

TAUNTON, Mass., May 23.—A prominent physician says that unless there is a decided change for the better in Miss Borden's condition she will not be able to face the judge at New Bedford, June 5.

He said that, according to all he could learn professionally, her mind was rapidly succumbing to the terrible strain she had endured for the past eight months. While it was true that she had almost entirely recovered from the effects of the cold which has troubled her since May 8, there are quite plain indications that loss of sleep and serious head trouble are effecting

It Does Not Affect Policemen, But It Will Affect Contractors.

TOPEKA, Kan., May 23.—Assistant Attorney General Allen, in an opinion just rendered, says that the eight-hour law enacted at the session of 1891 does not apply to policemen or other officials. This opinion was brought out by a movement made by the policemen removed by the populist police commission of Topeka to recover pay for over-time since the law went into force.

### THE SUGAR BOUNTY.

Governor Hogg, of Texas, has again demonstrated that he is a statesman as well as a politician, and a statesman, too, with the nerve to do his duty.

The state of Texas works her convicts upon sugar plantations and the legislature passed a bill authorizing the manager of the state farm to accept the bounty given by the government to sugar producers.

Governor Hogg vetoed the bill, and in his message uses the following patriotic language:

In the first place, I believe that congress was guilty of a usurpation of power in passing the bounty act, and that to accept money from such source the state government would be an accessory to the crime.

In the second place, I believe the state would debase her dignity, prostitute her honor, and appear before civilization as a humiliated suckling holding on to the breast of the federal government, if she were to accept the bounty.

Such laws are fundamentally wrong, subversive of the powers of government, undemocratic, paternalistic in the extreme, and no state can be a party to, connive at or ratify them, without a surrender of its self-respect.

If the fathers were correct in teaching that the federal government is of strictly limited powers; that the powers are enumerated, specified and particularized, and that whatever is not delegated to it by the constitution, or prohibited by that instrument to the states, is withheld and reserved to them, then I am unable to trace the right to grant this special benefit to the favored few in the way of the sugar bounty to any source of power except that which lies in the arbitrary will of congress.

It is a forced and unfair construction of the constitution to hold that congress possesses the power, under the "general welfare" clause, to collect money from the masses with which to defray the expenses of and to pay a premium to those engaged in private pursuits. The express purpose of the people in framing and of the states in adopting the constitution was to form a more compact union, to establish justice, to insure domestic tranquility, to provide for the common defense, to promote the general welfare, and to secure the blessings of liberty to ourselves and to our posterity. The powers of the congress were limited to the accomplishment of these ends. How can an appropriation out of the general treasury be paid to sugar raisers aid in forming a perfect union? How can it establish justice? How will it insure domestic tranquility? How can it provide for the common defense? How does it promote the general welfare? How can it secure the blessings of liberty to ourselves and our posterity? If it fails to accomplish some of these purposes, then the congress had not the power to make the appropriation. All observant men see and understand that the excuse for all such usurpation of power by the congress, exercised invariably at the expense of the great mass of the people for the enrichment of the few who fill the lobbies around the capitol, finds a cloak under the clause of the constitution which authorizes that body to "provide for the general welfare of the United States." I cannot understand how it is to the "general welfare" of the several states, or of the United States, or of the people of the United States for Texas to be given a bounty by the federal government for raising sugar.

to know whether these legal tragedies will restrain the murderous impulse of the next man who has it in his heart to take a human life. It is very liable to have just such effect, says an exchange, and it is positively certain that neither Harris nor Almy will again gratify that murderous impulse. Had the laws of Michigan permitted the execution of Latimer for the cruel murder of his mother, he would never again have taken a human life. As it is, he has murdered one man and there is yet no assurance that the number of his victims will not be increased.

If Bissell adheres to his foolish, mugwumpish ruling that fourth class postmasters will not be turned out, even after four years service, except where charges of "offensive partisanship" are filed against them, he may expect charges of offensive non-partisanship to be filed against him pretty soon. There is no more reason why the democrats in a community that has only a fourth class postmaster should be insulted, scorned and ignored, than there is why the democrats in any city in the union should have the same treatment.

MELLVILLE D. LANDON, otherwise Eli Perkins, has declared that the McKinley bill has made the country prosperous; and that, says the *Free Press*, when we consider Eli's well-established reputation, ought to settle it. Perhaps as an additional precaution it would be well to wait until we hear from Tom Ochiltree, Eli's most famous rival in his specialty; but pending a report from the gifted Texan the country can go ahead on the assumption that Eli has hit the nail on the head with quite his customary accuracy.

In many sections a fight is being made against the extortionate charges of the telephone monopoly and Attorney General Olney is expected to push the suits to declare the last patents expired. There is no reason in the world why the telephone should not be brought into general use by placing it within the reach of everybody.

THE KANSAS CITY *Star* says the "trust" is a bugaboo, arguing that trusts always go to pieces sooner or later. So do bands of housebreakers or train robbers; so do all human organizations. But the fact that they go to pieces is no reason for failing to prosecute them.

THE FIRST NATIONAL bank of Springfield, the oldest banking institution in the city, which was long so successfully conducted by R. L. McElhaney, was on Monday consolidated with the American National bank and passed out of existence.

CHAUNCEY H. SNOW, the man who as director of the Union Pacific railroad, made the report that caused the Credit Mobilier investigation which uncovered the rotten record of so many rascally politicians, died in Washington City on Monday.

If there is to be anything like the attendance expected at the World's Fair the railway companies will have to work it up by offering exceptionally low rates.

It is currently reported that Col. Charles H. Jones will start a new morning paper in St. Louis. The colonel refuses to either deny or confirm the report.

In talking of an income tax it is just as well to bear in mind the difficulty in collecting it. A tax of this kind opens a wide field for the tax dodger.

### THE SEDALIA COLLEGE.

Rev. John W. Hamilton, of Boston, Raising Money for Educating the Colored People.

Rev. John W. Hamilton, of Boston, secretary of the Freedman's Aid and Southern Educational society, with headquarters at Cincinnati, arrived Saturday, says the *Springfield Leader*, and was the guest of Mr. and Mrs. Ely Paxson, East Walnut street, during his brief stay. The reverend gentlemen is one of the leading exponents of Methodism and at the general conference in Omaha recently attracted considerable attention by championing the rights of women to vote in church matters.

Sunday morning Rev. Hamilton preached to a large and fashionable audience in Grace M. E. church on his chosen work. He is plain-spoken, effective and did not seem to care whose corns he tread on if he thought he was doing right. He had been looking at statistics and found that crime was rapidly increasing in the United States, the proportion being greater among colored people. He believed the best way to counteract this state of affairs was to establish colleges, educate and make useful citizens of them. Therefore he came to Springfield to raise funds for building the George R. Smith college at Sedalia. If this institution was not erected and ready for use by the first of next January all money expended and labor would be lost and the land revert to the Smith heirs, who donated it on certain conditions. Kansas City had responded nobly by donating \$1,500 in one day and other cities and towns were contributing. He hoped Springfield would have some pride in this institution, as it would be the only one of the kind for many miles. A subscription and collection was taken and it was learned that \$250 was raised by Grace church and about \$180 by the colored people.

Mr. Hamilton preached in the Benton avenue church last night, but the amount raised is not known at present.

The eloquent divine left for Lebanon this morning, where he will continue the work. He is a hard worker and is confident of succeeding. "For every dollar contributed by Missouri," said he, "I will agree to bring in three outside of the state."

### THE RAILROADS.

There is an unusual increase of stock business on the Missouri Pacific.

Will Tutt, traveling freight agent for the Missouri Pacific, is down from Kansas City to-day.

D. B. Rucker, formerly of Sedalia, but now running an engine in Georgia, is visiting his children in this city.

Passenger engine 226 is out of the Missouri Pacific shops entirely rebuilt, a new boiler being one of her new beauties.

Conductor Tom C. Butts has returned from St. Louis, where he attended the funeral of the late Conductor Fitzgerald Sunday afternoon.

It is not often that a person sees car No. 1 on any road, yet St. L. & I. M. car No. 1, loaded with coal, is in the Missouri Pacific yards to-day.

The "Katy" from the south was an hour late this morning. The bad time made on the Houston extension was the cause of the trouble.

J. R. Baldwin, the Missouri Pacific engineer, has shipped his household effects to Ossawatimie, Kas., preparatory to removing his family there.

Jno. Minnier, the well-known narrow gauge engineer, is arranging to depart with his wife on next Sunday for the World's fair at Chicago. John will forget about the Osage for the time being.

The high winds of the past two nights have made the position of freight engineer one that is far from being a soft snap. The amount of extra power required to pull the trains is very great.

Roadmaster P. Rockwell went north this morning and will inspect 50,000 ties between New Franklin and St. Charles. The road has contracted for 200,000 ties to be used on the main line. This is the first consignment.

John R. Glenn, foreman of the east end yards, has cut off part of his "wind fighters" and bears no small resemblance to an English lord just over from the chalk cliff country. To appreciate his appearance, he must be seen.

General Manager W. B. Doddridge, Second Vice President C. G. Warner, Chief Engineer J. W. Way and Superintendent of Motive Power Frank Reardon were at the Missouri Pacific shops yesterday on an official tour. The gentlemen spoke very highly of the shops and the work turned out, paying Master Mechanic S. P. Weller a very neat compliment.

### The Wabash Breaks the Record.

The eastern roads are saying a great deal of late concerning fast runs. How is this for the Wabash western lines, asks to-day's *Globe-Democrat*. Wabash day train No. 2 left Kansas City on Saturday morning at 11:05, over one hour late, and arrived at Centralia, Mo., 153 miles, on time, at 2:45 p. m. The run was made in three hours and forty-five minutes, including nine stops, one of twenty-five minutes at Moberly for dinner, making the actual running time two hours and forty-eight minutes, a rate of fifty-four and one-half miles per hour. This breaks the record west of the Mississippi for long-distance running. It was made with engine No. 314, Robinson, engineer.

### The M., K. & E. Election.

The annual meeting of the Missouri, Kansas and Eastern Railway was held here yesterday, says to-day's *Globe-Democrat*, and the old board of directors was re-elected, as follows: Edward C. Simmons, Geo. D. Dana, S. M. Kennard, Lewis C. Nelson, Lewis B. Tebbets, C. F. G. Meyer, Stephen A. Gore, James B. Case, Thos. H. McKittrick, Eugene F. Williams, David D. Walker, Marcus Bernheimer, Ellis Wainwright, all of this city. Among those present who came from New York City were: Henry C. Rouse, Wm. Dowd, Joseph H. Bond, Simon Sterne, Charles C. Hedge. At the election the stock of the company owned by M., K. & T. interests in the east was voted by Henry C. Rouse as proxy. At the meeting of directors the following officers were elected for the ensuing year: Edward C. Simmons, president; S. M. Kennard, vice president; Lewis C. Nelson, treasurer; George D. Dana, secretary; Charles G. Hedge, assistant secretary and assistant treasurer.

The Missouri, Kansas and Eastern is the St. Louis extension of the Missouri, Kansas and Texas railway and has been under construction for the past year from Boonville to a junction with the Burlington's Missouri system at the Bellefontaine bridge across the Missouri river, which is now under construction. It is expected that the Missouri, Kansas and Eastern road will be completed and opened by the 1st of July next, when its St. Louis business will be carried on

through the extensive terminals of the Burlington in North St. Louis under a ninety-nine-year lease.

### At the Hospital.

George A. McCamm, belonging to the cotton transfer crew at Hannibal, got badly knocked out while taking in the switch light Sunday morning. The hand-car upon which he was riding ran into a one-horse wagon, shattering a wheel and injuring the driver and the horse. McCamm received a severe cut on the left arm and had his left knee badly contused.

Chas. Horn, a section hand from McAlester, was admitted this morning suffering from diarrhoea.

A. T. Wilson, colored, a shop hand at Denison, was admitted with dysentery.

### Death of Mrs. A. Y. Hull.

A lady who resided in Sedalia many years is thus referred to in a Pueblo, Col., dispatch of the 22d: Mrs. A. Y. Hull died here last night after years of invalidism. She was the wife of Dr. A. Y. Hull and formerly lived in Sedalia and was the mother of Congressman J. A. T. Hull, of Des Moines; M. A. Hull, of Kiowa, Kas.; Mrs. S. L. Highleyman, formerly of St. Louis; Mrs. Dr. Porter, of Des Moines, and Mrs. Minor Morris, of Wyoming, Ohio.

### Improving the Track.

The low joints and soft places in the electric railway track on Hancock street are being improved to-day. The work may continue onto Ohio street.

Secure your seats for "Pirates of Penzance" at the opera house to-night.

### Will Keep Things Fresh.

W. J. Letts, the hustling East Sedalia grocer, is tapping the water main and will have a beautiful spray over the "garden sass" in his new vegetable stand.

### Fine, Juicy Oysters.

Fresh oysters, the first of the season, served in all styles at Sichert's cafe. Also for sale by the can.

### A Sneak Thief.

Ed Love is short to-day on a pair of tugs and a pair of buggy shafts which some miscreant stole from his barn.

### Wanted

A good white girl for general housework. References required. Apply at 218 West Fourth street.

### Charged, With Fraud.

Albert Lee, the Ohio street butcher, was arrested this morning, charged with having obtained \$100 worth of dressed meats from the Armour Packing Co., of Kansas City, by false representations. He was taken before Justice Fisher, when he gave bond in the sum of \$500, with J. B. Rickman as surety, for his appearance on Monday, the 29th.

### Want Better Lights.

A West Seventh street citizen to-day was objecting strongly against the condition of the electric lights on his thoroughfare. Last night he states that total darkness pervaded that vicinity, notwithstanding the fact that the city pays for the lights.

Smoke "Americanite" cigars.

Go out to Forest park to-day.

LIQUORS AND WINES,  
112 Osage, Frank Krueger,  
Manager.

### The "Pirates."

Miss Estella Ewing made a great hit at Wichita as Mabel, in the Pirates of Penzance. She will appear in that part to-night at the opera house.

### Will Meet To-Night.

The Industrial Council will hold its regular semi-monthly meeting at D. O. H. hall on East Main street to-night.

### Get a Ticket!

Get a daily, weekly or monthly accident ticket from Will Woods before boarding train for World's fair or elsewhere. Covers all kinds of accident. No. 118 East Fifth street. Telephone 186.

### Are You Thinking

Of what you ought to take with you when you go to the World's Fair? Your outfit will not be complete without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. The change of water, diet, fatigue and irregular habits during your trip are almost certain to produce diarrhoea and a dose or two of this remedy may save you serious sickness and perhaps much expense. Procure it before leaving home. 25 and 50 cent bottles for sale by druggist.

**Rather Chilly, This Is.**

Five degrees fall of temperature an hour would not have been considered a very serious occurrence last January, but when it began to act that way yesterday afternoon people at once started grumbling, and discarded overcoats were in demand. From 1 p. m. to 7 p. m. the mercury dropped just 26 degrees in Sedalia, and in the same ratio throughout a belt from Wisconsin to New Mexico. It is a little warmer to-day, however, but spring overcoats are still in demand.

**The Reason Why.**

"The principal reason why the bond investment companies in the state have not deposited their \$100,000 bond," said a gentleman informed upon such matters, to-day, "is the fact that the state tax upon such collateral will be due June 1st. By waiting until after this date, those companies which intend to comply with the law will be saved no inconsiderable amount."

**Use Sweet Springs Water.**

We have just started a wagon which will deliver each morning the celebrated Sweet Springs water in all its purity to your homes, offices, stores or work shops in quantities of from one to twenty gallons. Leave orders at 114 West Main street. Telephone 151. Woodson & Beaty, agents.

**Crystal Ice Co.**

The old reliable is in the market with two years' supply of the finest ice ever harvested in this section. Prompt service guaranteed. Many thanks for past favors. No one can complain of quality or prices. We can take care of you. Leave orders at D. H. Smith's store.

IRA HINSDALE, President.

**Still Seriously Ill.**

Tom H. Frame, editor of the Boonville Democrat, referred to yesterday as being seriously ill, is still in a precarious condition. He passed a fairly good night, but this morning was restless and quite flighty, causing his devoted wife and relatives and friends great alarm.

**Prof. Robyn's Comic Opera.**

The Globe-Democrat of to-day gives on its editorial page an extended critical notice of Prof. Alfred G. Robyn's comic opera, "Jacinto." The critique is flattering in the extreme and bespeaks for this already successful musician and composer a degree of fame that shall rank him among the leading comic opera composers of the land. Prof. Gwilym Miles has a responsible and brilliant part in the opera, "Miguel, captain of the guards." His success in St. Louis is a matter of great pleasure to his Sedalia friends.

**Will Fish on Blackwater.**

J. S. Langhorne and C. C. Wells will go to Sweet Springs this afternoon and from there will go to Blackwater, where they will pitch their tent and remain all night fishing. It is safe to say that the citizens of Saline county will have to go elsewhere for their fishing hereafter, as the Sedalia fishermen propose to get everything from bass to mud turtles.

**A Pleasant Surprise.**

Mrs. E. T. Brown, called by her legion of friends "Grandma" Brown, was the recipient of a most agreeable surprise at noon to-day, when she was called upon at her home and entertained by a large number of married ladies, all friends of years' standing. During the morning hours "Grandma" had been induced to leave home on some pretext, and it was a complete surprise when she returned and found her apartments occupied by friends, who are spending the afternoon with her.

**They Struck To-day.**

A telegram received here to-day states that all of the operators on the Chicago and Northwestern road who belong to the O. of R. T. struck this morning.

Yesterday their chief, Mr. Ramsey, presented a demand for a uniform scale of wages, and also an assurance that no operator would be discharged because he belonged to the order, but the railway refused to grant the demands, and to-day's strike followed.

**Must Be Condemned.**

Councilman Honkomp visited this morning the sewer that drains the Missouri Pacific shops and found its condition very bad. It overflows the yards of adjacent property and will be condemned at once.

once. The board of health will make an investigation this afternoon. Mr. Olmstead seemed to think that the Missouri Pacific was mainly responsible for the state of affairs.

**Heldman—Vaughn.**

Cards are out announcing the marriage of Mr. J. R. Heldman and Miss Jessie Vaughn at the residence of Mr. and Mrs. H. A. Barnes, tomorrow evening at 8:30 o'clock. The DEMOCRAT extends its best congratulations.

**Give It to Them Gratis.**

At last night's meeting of the board of education permission was granted two German ministers of the city to use Central Primary school building during vacation, gratis, for the purpose of instructing a class in German.

**An Elegant Rig.**

One of the finest rigs ever seen on the streets of Sedalia was out this afternoon, and was a "Cleveland landau" to which was attached a beautiful team of matched horses, with a driver in livery holding the reins. This fine rig was the property of the well known liveryman, J. A. Collins, who is always in the lead in fine livery.

**Anna Got a Ring.**

Miss Anna Pope, of No. 120 East Sixteenth street, to-day received a handsome gold ring, with pearl and turquoise settings, from a Toronto, Canada, firm that had arranged a word contest in which Miss Anna was one of the successful ones.

**Police Court.**

James Turley, of unsavory reputation, who has lately made Kansas City his rendezvous, came to Sedalia last night and was grabbed almost before he could step from the train. James, together with four or five others, was fined \$5 for trespassing, and given minutes in which to leave the city.

**Fatal Accident at Carthage.**

CARTHAGE, Mo., May 23.—An accident occurred last evening at the Stevenson mine, near Carterville, resulting in the death of Charles Townleson. He was being hoisted from the shaft when the rope broke, causing him to fall 100 feet. He leaves a wife and two children.

**An Editor Arrested.**

The editor of the Green Ridge News is humiliated over the fact that he was arrested and fined for playing ball in the streets of that place. Perhaps it was not the letter but the spirit of the law that was enforced by the judge.

## THE CURRENT MODES.

## PICTURES FROM THE REALM OF FASHION.

Some of the Latest Styles for Woman and Home—Miss Loie Fuller on the Usefulness of the Corset—Fashion Notes.

## Paces Set by Dame Fashion.

With all previous ideas of the fitness of things as far as color is concerned at sixes and sevens, 't is still fashion's behest, that certain correspondence be maintained between different parts of the costume. The time was when a

PRETTY SPRING HAT.

bonnet or hat, as the case might be, to suit the changing seasons, was sufficient to satisfy the fickle dame's demand, with perhaps the exception of headgear of some sort expressly designed for evening wear. Now it is necessary to have one's headgear not only co-ordinate with the occasion but with the costume, in style, material and color, for although colors are used in confusing complexity they yet must be of a piece, so to put it, with the other color combinations used.

Lace is much used for bonnets and hats designed to be worn with visiting toilets. The stylish bonnet illustrated is of cream lace. The bandeau rosette and upright ends are of eau de Nile ribbon. On the crown is a mauve orchid held in place by a brown velvet bow. In the back is an upright chelon of lace, below which is a cluster of clematis. The strings are of brown velvet ribbon.

## The Corset.

Loie Fuller refutes the argument of the dress reformers, that grace is incompatible with corsets, by announcing, as the result of her own experience, that a well-made corset fits the body exactly and supports instead of confines it; is, in short, a help rather than a hindrance to grace. "I do not think I could dance without a corset or a boned waist," she says, "and I am quite sure that I could do all of my dances in the snugest street gown I own. It is nonsense to suppose that grace and well-fitting gowns cannot go together. It is easier for a woman to be graceful if her dress fits her than if she is wearing a loose rag of a dress." She says, too, that the day is past when women could walk and dance better without heels. The foot has been trained for generations to walk with a heel, and without it is badly strained across the instep. For dancing purposes she recommends a plain satin slipper, because it "gives" to the foot, and, being without ornamentation, makes the foot look small. The Parisian career of La Fuller, as an interesting study in comparative values. While the literateurs and the scholars receive an average salary of \$3,000, or at best \$4,000, a year for their intellectual service in the world of letters, the light-footed Loie is paid rather more than \$2,500 a month in the Folies-Bergeres alone, and has a three years' contract for twelve months in the year.

## In Lace and Cashmere.

To women who are given to the luxurious French fashion of taking their morning coffee in bed dainty lingerie is even more attractive than it is to their more energetic sisters. A fascinating little bed jacket made in an entirely new design is among the recent importations of a Chicago firm. It is a soft reversible cashmere silk warp, showing varied shades of blue. The material is brought up in folds over the bust and then hangs down in two

A PRETTY RED JACKET.

long ends that are loosely tied. Creamy point degene lace outlines it. The sleeve is a whipped puff finished with a ruffle of lace.

## Light Fabrics and How to Make Them.

The new French and Venetian chables are exceedingly fresh and tempting to the eye after the protracted exhibit of heavy winter fabrics, and with their dainty tinted grounds strewn with flowers and foliage adorn the shop windows as harbingers of balmy summer. These sheer and dainty wools are made into exceedingly attractive toilets in empire, pompadour

and semi-Greek styles, the latter models showing long, graceful draperies arranged over very closely gored foundation skirts of silk or batiste. The pompadour dresses are cut with flowing skirts, the bodices in short-waisted style, and cut out square in the neck, front and back, with lace or velvet bretelles beyond, that spread above the tops of the full sleeves. Among other pompadour dresses are those of flowered muslin made up over skirts of batiste, and of stamped "Persian gauze" over foundations of moire the color of the flower in the gauze. If a rather flaring effect is desired the gored underskirt is made of linen-back moire that is sold for the purpose.

## A Pretty Lamp Shade.

One of the prettiest lamp shades I have seen recently is very easily made at a cost of about twenty cents. Get a yard of red gauze veiling at fifteen cents; gather it with strong silk two inches from the top, to a length that will fit the neck of a white porcelain shade. Inside of the gathering fit a piece of brass wire, fastening to the gauze by stuck stitches here and there. Now fit it to the shade and blind stitch the ends of veiling, which will now hang several inches below the shade. Catch up the gauze at regular intervals in six places; fasten with a few stitches and cover the place with a bow of narrow red ribbon. This bow should have four loops and two ends, each about two inches long. The current of air drawn by the flame of the lamp will keep these little streamers in constant motion. This same shade, developed in yellow mull, with yellow ribbons, is even yet prettier, to my thinking.

## Fashionable Afternoon Gowns.

Among the pretty toilets for afternoon wear next season are glaze silks and shot foulards and taffetas in pompadour or old chintz patterns, made up not upon ermine linings at all, but over inexpensive silks or batistes. The sash and ribbon trappings on these dainty toilets match the hue of the chintz or brocade. The designs and exquisite colorings of these materials successfully rival the more expensive silken tissues. The new short silks of the season make up very handsomely with plain surahs, which show one shade of the changeable silk, dotted with silk of the other tint. For instance, a violet and green shot taffeta is combined with a rich lustrous surah of mignonette green thickly dotted with silk spots of a lovely heliotrope shade, a trifle less rosy in tint than the violet color in the taffeta. The round-waisted corsage has immense revers of green velvet lined with violet surah.

## For Small Maidens.

An indoor gown and an outdoor coat are given here. The little house frock is of white China silk, made with a

short blouse waist and doubly puffed sleeves. The coat is of pale blue broadcloth, with two capes of moss green velvet. The wide revers and double row of pearl buttons make this a very effective little affair.

## Notes of Current Modes.

The latest fad in colors is a delicate shade of yellow called brurre frais, or fresh butter.

Goods that are finely repped from selva to selva, both in wool and mixed silk and wool fabrics, are very popular.

Jewels of various sorts are favorite ornaments for the hair. Not only are they in the form of flowers but of spiders, butterflies, bees and humming birds.

The pretty French silks are now rivalled by the English fabrics called Bradford silks, which are especially serviceable and desirable for summer street costumes.

The favorite material for the natty princess coats which are much the vogue as street garments is of rough cloths in very light shades or those woven with loops of camel's hair in a shade darker than the ground.

A simple and stylish traveling costume is of Harris tweed made with a Russian blouse, a flaring empire skirt, very full sleeve and a belt embroidered in mohair braid. The same braid ornaments the foot of the skirt.

The latest thing in the mutton-leg sleeve is larger, wider and fuller than it has been. It is not only plaited at the arm size but also at the elbow, on the outside and inside of the arm, to give it the desired draped effect.

Black laces were never more in vogue. They are used for bretelles, collarettes, fichus, sleeves and the parts of sleeves, jacket fronts and neck and belt garnitures. Eern lace enjoys almost equal favor and latter in the season will be even more the mode.

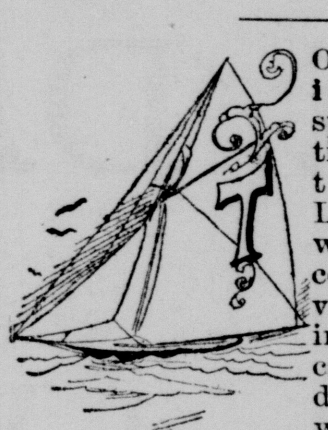

As serviceable as they are stylish are castor gloves. These gloves are especially desirable for ordinary use. The leather is soft and pliable and if sponged now and then in warm water in which a bit of castile soap has been dissolved the gloves can be kept in good wearing condition for a long time.

Light summer fabrics which are now being made up in quantities by modistes have round French bodices without darts or side forms and are draped in surplice fashion both back and front. Sometimes these waists are very full and are draped from the right shoulder to the left underarm seam with a soft, wide corselet reaching well up under the arm all around the figure.

## LAKE YACHTING TALK

## HOW FRESH WATER YACHT CLUBS FLOURISH.

The Brotherly Feeling Extant Between the Inhabitants of the Northern and Southern Shores of the Great Inland Seas.

TO BE THE ONLY international sporting association in the world is to be peculiar. Love for sport, which is yearly becoming more universal, is producing a power which can no longer be disregarded. We wish to inform belligerent politicians of America and Canada that in the upper lake region international ties are being reef-knotted in a way that threatens to frustrate all hope of war. We deem it proper to give war-loving or war-talking politicians of both countries full opportunity to stamp this thing out.

The Lake Yacht-Racing Association of Lake Ontario has its own aims, and its success is remarkable. Through its efforts the people of two countries which are supposed to be in rivalry are being bound together by agreements and confidence created and cemented in the brotherhood of sport. The occasional play-ground of the ubiquitous seal may or may not be a mare clausum; the fisheries' question may cost a great deal in postage, ambassadors' Pullmans and champagne; elections may be worked for as much as startling politics may be worth; but in all this the Lake Yacht-Racing

COMMODORE JACK STUART.

Association laughs openly. It continues its dinners, suppers, races, humorous speeches and entwined flags, while remaining entirely indifferent to any passing political squalls at Washington, London, or Ottawa.

Enjoying the same racing laws, the same winds, varying luck, and different beverages, the yacht clubs on both sides of this inland sea are composed of people between whom the only perceptible difference is in the science with which they prepare refreshing liquids. It is admitted that Canada possesses the best fluids. But America has the best science. So that any one must necessarily be in a quandary as to which side of the lake to live on.

The arrangement is this: The yacht clubs, both American and English, have, through their delegates, formed into an association in which one set of rules governs its races. The yachts of all the clubs meet at a certain port (which rendezvous is altered every year) and cruise in company to each harbor possessing an association yacht club. At these ports there is at least one day's regatta, followed in the evening by a public ball or other entertainment, provided by the city residents or by the local club.

The association includes about one hundred and fifty yachts. Its officers are elected from both nationalities. In cases where it is difficult to decide as to which of two yachts has won, the foreign competitor has the best chance. And this is the way the nationality of two countries is being undermined. When in such case the local committees award the prize to the foreign yacht, they say: "We want no hogism for country's sake on this lake. Subtract 'hog' from 'nationality' and the little you have left is valuable."

Now, regard the necessary effects of this two or three weeks' fraternizing on the careers of war-politicians. Commodore Matt. Cartwright of the Rochester Yacht Club, and President of the association, says: "Several years ago we had one of these war-politicians with us on our international cruise, and I have never believed in any one of them since. I cannot give his name, but the way he recklessly abandoned the cherished principles that lead toward devastation, and the way he didn't know which people he liked best, made me lose all confidence in him as an engine of destruction."

It has lately been reported that the yachtsmen of Lake Huron and Lake Erie are organizing another such association. If this be so, and if the other lakes follow suit, there will soon be no possibility of forcing the people

COMMODORE BOSWELL.

on either side of our most important national boundaries to contest with each other in any other way than in yacht-racing. Now, is this right? Should it be allowed? What was all our drilling for? And why did we spend years in learning how to shoot, if the time-honored hostilities of 1776 are to be frittered away in dinners and jokes?

Nay, more than this. It is a fact that if by any chance war broke out, Commodore Mott of Oswego could bear a charmed life in any English town on Lake Ontario; and any man in the American lake cities who pointed a

gun at Commodore Boswell of the Royal Canadian Yacht Club would be jumped on by his own people till he needed the football ambulance. How depressing to every warlike instinct to view a meeting on a battlefield between Commodore Jack Stuart of the Royal Yacht Club and ex-Commodore Saunders of Rochester. They would simply say, "It is a long time between drinks," and the engagement might wait or go on by itself. The tents of Capts. George Evans and Charles Brown of Toronto would certainly be found filled with American commodores, or vice versa. The point we indicate being this—that rank treachery to either country would undoubtedly ensue, and could only be traced by finding out which side had the keg.

A complaint may truthfully be made by some people that the most inflammatory newspaper head-lines have lost their intended effect on the people of

COMMODORE MOTT.

the lake region. In Oklahoma, United States, or in Cobakank, Canada, there may still be those who are stirred by lucrative newspaper war talk; but the vast numbers of yachtsmen here referred to deal with this in but one word. They say "Rats!" This may sound vulgar but its meanings are deep-set with those who have exchanged hospitalities for so many years that all their former efforts in the volunteer life have long since had to them an absurd look.

The kingdom of sport has many mansions, but no national boundaries. It is rapidly extending its empire into two countries, and promises to spoil all chance of a fight, or even attracting attention with the war whoop. Young politicians of both countries who have their careers before them, and political parties in want of a policy, should note the fact. If this sort of thing be allowed to continue we will soon have two nations side by side who absolutely refuse to fight, in spite of all that newspapers and politicians may say or do. And what a silent slur this would cast on the most respected old cut-throat traditions!

C. A. STONE.

## THE LEAGUE CAPTAINS.

The Changes in Team Commanders Made This Year.

Over half the teams in the big League started off last week with new commanders. There has been little reference made to the changes that the clubs have made in the captaincies, but a run over the list reveals the fact that seven of the dozen have made changes in field leadership. True, John Montgomery Ward has simply switched over from Brooklyn to assume his old rank in New York, and Danny Richardson has bobbed up in Brooklyn, leaving a lot of the apples of Sodem in Washington. In Philadelphia John Clements peremptorily refused to assume the reins, and Bob Allen has been chosen instead. Joe Quinn has succeeded Glascock, Crooks and other relics of the St. Louis regime of '92. This is Captain Quinn's first experience in that line. Louisville has retired Tom Brown and restored Fred Pfeffer to his old role. In Pittsburgh the players turned their backs upon St. Jacob Beckley and laid the laurel wreath upon the brow of Fatsy Donovan. Harry Stovey is the leader of the Baltimore and Orator James O'Rourke makes all the little speeches for Washington. Oliver Wahoo Tabeau is the Cleveland captain and the Bostoners restored Billy Nash to his old rank. Chicago and A. C. Anson are one and inseparable, while Cincinnati still sounds aloud the praises of their old commander of the Red Legs, Charles A. Comiskey.—Sporting Life.

## THE STAGE.

Lottie Collins has returned to England with \$30,000 from American pockets.

Buffalo Bill is backing his pretty daughter, Katharine Clemons, in a starring tour.

Harry R. Jewett, an Australian actor, will be Julia Marlowe's leading man next season.

Minna Gale-Haynes took her farewell of the stage—at least, it was so announced—at Boston, Mass., April 1.

Ibsen's "An Enemy of the People" is in rehearsal at the Haymarket Theater, London, for matinee performances.

Junius Brutus Booth has entered the medical department of the University of Vermont and intends to become a physician.

The actresses have a club of their own, which has been incorporated under the laws of New York State as the Twelfth Night Club.

Daniel Frohman has signed for next season Mary Hampton, Robert Edison and Howell Hansell of the Boston Museum Company.

When Dr. Augustin Daly performs "The Foresters" in London he will be asked by the Queen to repeat the performance at Windsor.

Miss Eastlake will star in England in "The Prince of Society" and "The Silent Battle." Belle Urquhart and her husband are with the company.

Richard Mansfield contemplates a voyage around the world at the termination of his present season on his new yacht, which is in course of construction.

H. C. Husted has been engaged by Joseph Jefferson for his spring tour. He was with Mr. Jefferson some years ago and since then he has been business manager for Mr. and Mrs. Kendal.

It is claimed that there is good foundation for the rumor that Adelaide Prince, of Mr. Augustin Daly's company, is engaged to be married to George W. Merritt, a New York man about town.

## CATON'S Nerve Tonic and Vitalizer.

QUICKLY CURES General & Nervous Debility, Spinal Exhaustion, Neurasthenia, etc.

Completely, Perfectly and Permanently Rejuvenating the Vital Energies, Nervous Power, Renewing the Ambition of Youth and the

COURAGE OF MANHOOD; Restoring to Enfeebled, Enervated, Exhausted, Devitalized or Overworked Men and Women

Perfect Constitutional Powers. Its extraordinary curative power manifests itself almost immediately it is taken. On this point the evidence of those who have taken it is uniform and positive. They say they can feel the effect of every dose doing them good. It is a powerful nerve invigorating tonic, imparting its restorative influence through the medium of the nervous system to every organ and tissue in the body. It makes but little difference whether the constitutional vigor has been undermined by acute disease, overwork, or certain mischievous indiscretions; or whether the broken down condition is called by one name or other, so long as there is nervous exhaustion, general or local weakness—so long as disease, debility and the type of the ailment, this is the remedy.

## THOSE WHO SUFFER

from the results of over-mental or physical exertion, hardship, exposure, hidden drains, caprice, or who have brought upon themselves a series of afflictions by ignorantly or willfully violating nature's laws, will find in Caton's Vitalizer and Nerve Tonic the remedy for their certain relief. It speedily removes all evidence of progressive physical deterioration, and restores the enfeebled energies to their natural vigor.

## WHENEVER THERE IS

any weakness of the vital organs, nervousness, prostration of the physical or mental energies, confusion of ideas, lack of self-confidence, irritability of temper, melancholy, cowardice, weakness of the knees and back, palpitation of the heart, dragging pain in the loins, headache, irritation of the kidneys and bladder, milky urine, pernicious and hidden wastes, resulting in a failure of the mental and physical powers, constituting an impediment to success and unfitting him or her for the duties and responsibilities of life, it is the remedy par excellence.

A single package will be sufficient to inaugurate the work of regeneration, and cure in many cases. But stubborn cases often require more. It will be sent, postpaid, secured from observation, for \$1.00 per package, or 6 packages for \$5.00. Address all orders to CATON MED. CO., Boston, Mass.

## An Objection to the Merry-go-Round—Paving Question on Main Street.

An adjourned session of the city council was held last evening, Mr. Honkomp presiding in the absence of Mayor Stevens; all councilmen present.

The need of a catch basin at the corner of Third and Osage streets was pointed out by Frank B. Meyer. The sewer committee was instructed to have a basin placed at this point.

On motion of Mr. McKenzie, the council accepted the invitation of F. A. Sampson, and on the afternoon of May 31 the mayor and the council will attend the corner-stone laying of the George R. Smith college.

The remitting of the taxes on lots 1 and 2, in block 16, Smith & Martin's addition, the property of the M. E. church, was referred to the committee on claims.

Further time was asked by Judge W. S. Shirk for his clients in the matter of accepting the Third street paving. Mr. Olmsted, chairman of the street and alley committee, said that the work had been investigated, but thought that the property owners should have been present at the time. On motion it was decided to allow the matter to lay over until the next meeting.

When the bids for paving the alley in block 45 were opened, they were as follows: Simpson & Myers, \$1.29 per square superficial yard; W. H. White, \$1.30. The council accepted the bid of the former. Mr. Hansberger thought both bids too high.

Mr. E. G. Church, the contractor, was present and objected to further delay in the acceptance of the Third street paving.

The city marshal, upon the complaint of Maj. Wm. Beck, was instructed to stop the merry-go-round at Third and Kentucky, at

10 o'clock p. m. on the other week days, and 11 o'clock on Saturdays.

The ordinance closing up Massachusetts street between the north line of Main and the railroad, the space to be used by George Gold and August Imhauser as a lumber yard, was passed. The ground is leased for five years at \$10 per annum, payable in advance at the first of each year. The ground is to be given up at the request of the city any time after thirty days' notice.

The committee on ways and means reported that the thirteen \$1,000 revenue bonds had been successfully negotiated at 7 per cent.

The city marshal and the supply committee were instructed to investigate the condition of the bed furnishings in the calaboose, upon the report of Marshal De Long, who stated that the bed clothes had become quite filthy.

The motion of Mr. Olmsted, that the city advertise for bids for curbing West Fifth street, was carried.

The faulty condition of the paving in front of Taylor's jewelry store was ordered repaired.

It was ordered that the curbing of Third street from Hancock to Engineer be advertised for bids.

A crossing was ordered put in at Thirteenth and Lafayette.

Ex-Mayor Blocher was present to protest on behalf of property owners regarding the proposed paving of Main street. He stated that the relaying of the top dressing would be received with favor and thought that it ought not to cost over 50 cents per yard. Mr. McKenzie thought it could be done for 30 or 40 cents. On motion, the city attorney was instructed to prepare a resolution to relay the top dressing and also to curb the street.

The ordinance prescribing the duties and fixing the salary of the city assessor was passed. The salary is \$600.

On motion of Mr. Anderson it was ordered that each alderman prepare and file at next meeting a list of sidewalks in his wards to be condemned in order that the city attorney can draw up an ordinance covering same.

Mr. Anderson advised that a steam street roller be purchased. The committee was so instructed and the Harrisburg roller, costing \$2,700, named as the kind wanted. It should be thoroughly examined by a competent machinist before received by the city.

The following bids for taking up and relaying the sewer in the alley between Ohio and Lamine and Second and Third streets were received, and the sewer committee instructed to accept the best one: J. W. Lowery, \$15 per foot; for the job, C. W. Witcher, \$110; John W. Lester, \$110; E. B. Settles, \$115; J. H. Love & Carter May, \$112.

The board of health, upon a report by Mr. Anderson, was instructed to examine the condition of the sewer draining of the Missouri Pacific round house, and condemn it for repairs if the condition is bad. It was moved that the sanitary officer attend all meetings and report to the mayor for instructions.

A warrant of \$25 was ordered drawn in favor of John Riley for trees furnished the cemetery.

The council adjourned to meet again on Monday evening next.

## A FOOT RACE FALLS THROUGH.

A foot race was arranged this morning between Councilman Rudolph Dean and John Johnston, clerk at E. E. Johnston's, the distance to be from Second to Third streets, on Ohio, Mr. Johnston wagering a pair of pantaloons against \$5. Dean was to give his opponent a start of fifteen yards, and the distance was stepped off, quite a crowd having collected in the meantime. Johnston removed his hat, coat and vest, but some one gave him a pointer that Dean was a runner with a record, in consequence of which the match fell through in a jiffy, to the disgust of the sports who had assembled.

## The Fattest Girl in America.

Jennie Campbell, who is now entering on her 14th summer, and who boasts of being the fattest girl in America, was at the union depot, in St. Louis last night, the *Globe-Democrat* says, en route to the World's fair city. Miss Campbell was on her way from Hot Springs, where she had been to get rid of part of her superfluous avoird-

upois, which causes her to tip the scales at 640 pounds. Instead of her weight being diminished, it was decreased by two pounds, and Miss Campbell thought it best to try the windy city, where she will jostle among the crowds at the World's fair in the hope of growing slender before she returns to her home in the mountains of Arkansas.

## PREACHERS LIKE IT NOT.

## Giving Up of University Commencement Exercises to Festivities Denounced.

COLUMBIA, Mo., May 23—Considerable excitement has been occasioned among the church circles of Columbia by the announcement that the committee of the faculty on commencement programs has decided to have all of the closing exercises of the university in the day time, so as to set apart the commencement week for the various society balls and other social events. The president and members of the faculty have been severely criticised for thus arranging to make every night of commencement week one of dancing and revelry.

Sunday all the ministers in the city, by special agreement, preached special sermons on this subject, condemning the action of the faculty. They regard the giving up of commencement week to dancing and revelry as a dangerous precedent, which they do not wish to see established, and they will seek to prevent a repetition of this next year by denouncing it in most scathing terms.

## Many Coming to Sedalia.

Will Reynolds has returned from St. Louis, where he spent a few days seeing the city and working up interest in the state meet of the Missouri division of the L. A. W., which meets in Sedalia in July. He attended the great road race at Forest park last Saturday, in which 50 wheelmen contested for the honors. The distance was 17½ miles and the best time was 1 hour and 20 minutes. The wheelmen of St. Louis are looking forward with great pleasure to their Sedalia visit.
